Members Get More

It's easy to see the playful environment at Stepping Stones as an end in itself. But membership gives you unfettered access to the rich language and literacy content available in our Family and Teacher Resource Center (FTRC); and fascinating STEAM learning in our Exhibit Explorations. There's a world of knowledge about plant life and pollinators in our gardens; and all ages can be energized and stay fit with pulse raising programs in Fitness Fun. Membership frees you to take full advantage of these programs with unlimited admission – plus exclusive programs and early bird access to special events.

Your Membership Matters

We are a non-profit organization that earns over half its revenue with the balance contributed through sponsorship, grants, gifts and membership. Membership is support that helps underwrite the engaging learning experiences our exhibits and programming deliver and so, your membership is partially tax-deductible and fully appreciated.

"This place is amazing! Great for a wide range of ages. Science, art, reading, pretend play – all on hand. Membership is a total slam-dunk and very reasonable if you come back a few times. Beats any other children's museum we've been to."

– Nicholas H., Norwalk, CT

"As a grandmother of two boys, aged 6 and 9, I love visiting Stepping Stones! The interaction between them and all the displays is fantastic! They share and delight in all the action and activities. I can participate as much as I want or I can observe their joy. Love you Stepping Stones!"

– Linda D., Bridgeport, CT

"I really love the members-only hour on Wednesdays and Saturdays to take my son who has special needs. Having the hour with just members and not the entire public allows him to enjoy all the galleries in a way he feels safe and comfortable. I am looking forward to the new ACCESS-ability Mondays when the museum adjusts the environment to make it more approachable for individuals that need modification."

– Marcelo G., Bedford, NY

"Well-run children's museum, a wide-variety of exhibits that are educational and stimulating for young children. We bought a membership after our first visit because my children spent hours there and still wanted more. I love that the family membership is the same price no matter how many children you have – a win for big families."

– Milica A., Eastchester, NY

"I want to give this museum and particularly their amazing staff 10 stars for their creativity and enthusiasm. The staff led us through a number of activities that the kids enjoyed immensely. Check for their special events. They are wonderful!"

– Amy B., Mahwah, NJ
